Course overview:
The three-week course, typically taught one week a month over three months, emphasizes applied learning; is very interactive; and utilizes small group case studies, videos, role playing, and class exercises to reinforce learning. Students are taught leader strategies for use in dealing with practical work place challenges. The course teaches participants the behavioral science theories to better understand how to lead individuals, groups, change, and organizations. Participants are challenged to use the theories and strategies taught to increase the motivation, satisfaction, and performance within their organization and to support organizational change. This effort is highlighted during graduation by presenting group projects created by the students in which teams identify actual organization topics in which they would like to see change. Groups then use applied learning to propose a calculated solution to these areas. When held accountable by the host agencies, the IACP has observed student projects change organizational culture, enhance officer safety, provide annual budget savings, and create new laws.

Please register soon as this class is extremely popular and will fill fast.
Please provide name, agency, phone number, and email for each person (No LET application required).

CRIMINAL INTERDICTION/PATROLLING/SEARCH, SEIZURE/CONCEALMENT

Date: May 15 – 17, 2017
Location: Pierre

Instructor, Greg Goltz, is a 28 year veteran trooper with a large Midwest state police agency. He is the instructor for his agency in Criminal Interdiction/Patrolling and has instructed Criminal Interdiction/Patrolling to thousands of law enforcement officers and their agencies from all over the United States. Greg is a veteran Police Service Dog handler, Firearms Instructor and Team Leader for SWAT. He also worked very successfully in undercover operations purchasing illegal drugs of all kinds. While working in the Uniform Division he has seized millions of dollars in United States currency and literally thousands of pounds of contraband all while making normal traffic stops that he turned into Criminal Interdiction arrests.

He created his own business known as CRIMINALaddiction Inc. and now travels all over the United States putting on seminars about these topics of: Interdiction, Search and Seizure, Concealment (advanced) and much more. He is a declared Expert witness in both the State and Federal court systems and actively testifies about this subject matter. He has received numerous awards for his Interdiction efforts and the training he provides, and currently has several "record size" seizures.

He also has made presentations about this subject matter to several Governors. Greg is also responsible for very important case law that better enables officers to do this work including the now important United States v. Morgan, Walker, Jones. He still works the road in the Uniform Division and still actively pursues these criminals during his everyday encounters. He also still works with other officers who have had tremendous success using these techniques. Join him, as he wants to spread his knowledge of catching "bad guys" and learn firsthand from individuals who are out there every day working the "ins and outs" of criminal interdiction.
