From September to December 2017, the South Dakota Criminal Statistics Analysis Center (SAC) surveyed sheriff offices in the state. A survey accompanied by instructions was sent to all sheriff offices via email attachment.

This was the 17th time the SAC compiled statewide management data pertaining to South Dakota sheriff offices. The results of this survey are intended to provide sheriffs with a valid means of comparing expenditures and resources of offices across the state. In addition, the results should provide the sheriffs with a substantial basis from which to justify future management decisions.

Currently, there are 66 sheriff offices in South Dakota (this figure does not include tribal agencies). 59 offices returned surveys yielding a total response rate of 89%.

The survey instrument is self-report completed by the sheriff or office staff. All questions were designed to be objective; however, some questions may have been subject to different interpretations. Thus, this report can only reflect summary results that are as valid and accurate as the data provided by each office.

It should also be noted that salary data throughout this report are approximations. Due to the number of personnel at any given rank, and the diverse salaries relative to each officer, such approximations were necessary in order to perform overall summary calculations.

The completed questionnaires were reviews for completeness and reasonableness by the SAC. If you have any questions regarding this information, please call Erin L. Baumgart, (605)773-6160, or email at erin.baumgart@state.sd.us.

Education

Since October 1, 1977, the Law Enforcement Standard and Training Commission require a High School diploma or equivalent (GED), before any officer may be enrolled in the Officer Certification Course. This course is necessary for certification as a law enforcement officer. Individual officers may have further minimum requirements for education to get hired or to achieve specific ranks within their particular agencies.

The following table illustrates the highest level of education attained for full-time sworn personnel, including the Sheriff, as of January 1, 2016, of each officer by office.
