ERIN BAUMGART
CRIMINAL STATISTICAL ANALYST

Survey Methodology:

From April to July 2019, the South Dakota Criminal Statistics Analysis Center (SAC) surveyed sheriff offices in the state. A survey accompanied by instructions was sent to all sheriff offices via email attachment.

This was the 18th time the SAC compiled statewide management data pertaining to South Dakota sheriff offices. The results of this survey are intended to provide sheriffs with a valid means of comparing expenditures and resources of offices across the state. In addition, the results should provide the sheriffs with a substantial basis from which to justify future management decisions.

Currently, there are 66 sheriff offices in South Dakota (this figure does not include tribal agencies). 59 offices returned surveys yielding a total response rate of 89%.

The survey instrument is self-report completed by the sheriff or office staff. All questions were designed to be objective; however, some questions may have been subject to different interpretations. Thus, this report can only reflect summary results that are as valid and accurate as the data provided by each office.

It should also be noted that salary data throughout this report are approximations. Due to the number of personnel at any given rank, and the diverse salaries relative to each officer, such approximations were necessary in order to perform overall summary calculations.

The survey only accounts for two divisions that a sheriff's office might manage, the law enforcement division, and the jail division. It should be noted that there are possibly several other divisions controlled and managed by a sheriff's office that are not taken into consideration in the 2019 Sheriff's Management Study, that will be added to the 2021 survey.

The completed questionnaires were reviewed for completeness and reasonableness by the SAC. If you have any questions regarding this information, please call Erin Baumgart, (605)773-6160, or email at erin.baumgart@state.sd.us.
