FTO	Kaminsky	Jan-18	AA, GW, KK	Lesson plan & classroom observation	Approved	14 hours of 40 hour class		I spoke with the instructor this morning. Those attending the FTO course develop obj, develop lsp (2 or 3) and develop assessment/tests. The inst. said it is conservatively 6 hrs. of work. I was in the computer room while they were developing their material - so I saw it in action. The inst. said they also work on remediation. Students use the 7 laws of learning and work in pairs to remediate in different scenarios like DV situation, etc. He said 8 hrs is spent on this. From my discussion with the instructor, I think 14 hrs. of this course could qualify as continuing ed. for firearms inst. Please let me know if you agree or not so I can let Taunya know and let the participants know.
