**Foreword**

Crime in South Dakota is an annual publication based upon Uniform Crime Reporting (UCR) statistics. The UCR program is the basis for collecting data on selected crimes by participating agencies throughout South Dakota. Prior to 1990, this data collection effort was handled directly by the FBI with approximately thirty-two agencies reporting in 1989. On January 1, 1990, the Criminal Statistics Analysis Center became the State Clearinghouse for UCR data. Following is a table that depicts the percentage of population covered along with the number of reporting agencies:

Reporting Year	Percent Of Population Covered	# Of Reporting Agencies
1990	85	82
1991	90	96
1992	88	89
1993	83	75
1994	78	64
1995	80	73
1996	82	76
1997	82	89
1998	82	84
1999	78	80
2000	82	88

This publication of Crime in South Dakota 2000 represents approximately eighty-two percent (82%) of the population as reported by forty Sheriff's Offices, forty-seven Police Departments and the Division of Criminal Investigation.

On January 1, 1994, the South Dakota Criminal Statistics Analysis Center (SDSAC) began accepting National Incident-Based Reporting System (NIBRS) data from participating agencies. Uniform Crime Reporting data continues to be collected from agencies in the process of converting to NIBRS. In 2000, the SDSAC received NIBRS from 69 law enforcement agencies. On February 16, 2001 the SDSAC received notice from the FBI that the UCR program had successfully demonstrated the capability to submit NIBRS data in accordance with criteria established by the National UCR Program. We were the 21<sup>st</sup> state to achieve NIBRS certification. The windows-based NIBRS software is available free-of-charge to South Dakota law enforcement agencies. NIBRS data will allow for more complete, accurate, and timely crime statistics. Take a few minutes to review the NIBRS section in the back of this publication. This is just a sample of the available data. Because of the many benefits of NIBRS, I strongly encourage all agencies to participate in this crime reporting program. We will be contacting you to provide further information.

I'd like to take this opportunity to recognize everyone involved with this project for your participation and cooperation. The Uniform Crime Reporting Program is a voluntary program and without your assistance, the following crime data would be unavailable.

 South Dakota Attorney General

## INTRODUCTION

Uniform Crime Reporting (UCR) is a cooperative effort among city, county, and State law enforcement agencies. The State Clearinghouse for UCR provides participating agencies with the necessary supplies required for Uniform Crime Reporting. Reports are completed and forwarded to the State Clearinghouse on a monthly basis. The Clearinghouse then reconciles all reports and submits them to the Federal Bureau of Investigation where national reports such as Crime in the United States are generated.

Certain constraints should be noted in interpreting the collective data for the State. The data included in this publication are based solely on actual figures, not estimated figures, from reports submitted by participating Sheriff's Offices, Police Departments and the Division of Criminal Investigation. These figures cannot be compared to 1999 data because of the difference in the number of reporting agencies, nor can these figures be compared to data released by the FBI, as the FBI estimates for non-reported data. Also, the Federal Bureau of Investigation's deadline for submitting crime statistics was March 16, 2001; South Dakota Criminal Statistics Analysis Center's deadline was May 23, 2001.

The population figures included in this publication were obtained from the Federal Bureau of Investigation. The FBI used a formula that takes the U.S. Census Bureau's estimated 1999 figures times the projected growth rate for South Dakota. The resident county populations sum of 754,844 was used. The information included in this report was generated by a combination of these population figures and data collected through the Uniform Crime Reporting System and the National Incident-Based Reporting System from the participating agencies.

The statistics were analyzed for a twelve month period beginning January 1, 2000. However, a few agencies did not report for an entire twelve month period. The information in this publication will reflect this partial participation. The data included in this report can only be as accurate as the data provided by each reporting agency. These figures are based on data received through the December 31, 2000 reporting period and index crime data was verified by the submitting agencies.

## INDEX CRIMES PER 100,000 POPULATION

One of the most meaningful crime statistics used in Uniform Crime Reporting is the Crime Rate. This rate is the number of offenses per 100,000 inhabitants. This rate can be calculated regardless of the number of inhabitants in a city or county. To compute rates, divide the jurisdiction's population by 100,000 and divide the number of offenses in each class by that answer. The answer is the number of offenses per 100,000 inhabitants and is the crime rate for that offense.

### Example:

Population for jurisdiction: 754,844 (South Dakota's 2000 Population)  
 Number of larcenies for that jurisdiction: 11,561

Divide 754,844 by 100,000 = 7.55  
 Divide 11,561 by 7.55 = 1,531

The Crime Rate for larceny in South Dakota for 2000 is 1,531 per 100,000 inhabitants.

## **MURDER AND NON-NEGLIGENT MANSLAUGHTER**

**9 Offenses Reported**  
**9 Offenses Cleared**  
**13 Total Persons Arrested**

---

**T**he willful killing of one human being by another. Any death due to injuries received in a fight, argument, quarrel, assault, or commission of a crime is classified as a Criminal Homicide. Suicides, accidental deaths, assaults to murder, traffic fatalities, and attempted murders are not classified as murder and non-negligent manslaughter.

In four (44%) of the cases, the victim was under 18 years of age. All of the victims were male, and seven (78%) of the victims were white. Three of the murders were the result of a domestic violence dispute involving wives, ex-wives, children, and/or girlfriends.

Nine (69%) of the thirteen offenders were male and nine (69%) were white. The circumstance in five (56%) of the murders was a single victim/single offender. Three murders reported had a single victim/multiple offenders circumstance. One murder reported had a single victim/unknown offender(s).

Self was indicated as the weapon of choice in four (44%) of the murders reported. Blunt object was reported as the weapon in one murder; a firearm was used in one murder; a motor vehicle was the weapon in one murder; "other" was the weapon in one murder; and a knife in one murder.

A Supplementary Homicide report is submitted by the participating law enforcement agencies in all murder cases. The report provides pertinent information including the age, sex, and race of the victim and offender(s), and any circumstances which led to the commission of the crime. Beginning January 1, 1988 the requirement for the collection of ethnic origin was discontinued; therefore, the ethnicity of victims and offenders is no longer contained in this report.

**T**he carnal knowledge of a female forcible and against her will. Rapes or attempts accomplished by force or threat of force are classified as forcible regardless of the age of the female victim. In the case that several men attack one female, only one forcible rape is counted. Statutory rape or other sex offenses are not recognized under this category. Sex attacks on males are excluded and classified as assaults or "other sex offenses" depending on the nature of the crime and the extent of injury.

Juveniles consisted of 22% of the total arrests made for rape. Eighteen (26%) of the persons arrested were in their 20's and nineteen (28%) were in their 30's. The month of March had the greatest occurrence with 29 rape offenses reported. There were 16 attempted forcible rapes reported.

Of the 68 persons arrested, forty-eight (71%) were white; sixteen (24%) were Native American and four (6%) were black.

**A**n unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. All assaults by one person upon another with the intent to kill, maim, or inflict severe bodily injury with the use of any dangerous weapon are classified under one of the aggravated assault categories. It is not necessary that injury result from an aggravated assault when a gun, knife, or other weapon is used.

The greatest occurrence of aggravated assaults was in August with 76 offenses reported. Knife or Cutting Instrument was used in 30% of the aggravated assaults. Seventeen percent of the total arrests for aggravated assault were juveniles.

**A**ll assaults which do not involve the use of a firearm, knife or cutting instrument, or other dangerous weapon and in which there were no serious or aggravated injuries to the victims. Although simple assaults are not within the Crime Index, they are collected under other assaults as a quality control matter and for the purpose of looking at total assault violence.

In 2000, there were a total of 3,973 other assaults reported. Of the total arrests for other assaults, there were 2,650 arrests made. Of those, 14% (374) were juveniles.

**T**he unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Larceny and theft mean the same thing in Uniform Crime Reporting. Motor vehicle theft is not included and is counted separately because of the great volume of thefts in that particular category. All thefts and attempted thefts are counted.

July had the greatest occurrence with 1,217 offenses. The total amount reported stolen for larceny offenses was \$4,651,210 with an average loss of \$402 per larceny. Twenty-two percent (\$1,133,813) of the total stolen was taken from motor vehicles with an average loss of \$450. Property taken from buildings had the highest average amount stolen of \$588. Less than one-half (46%) of the total larceny arrests were juveniles.

**T**he theft or attempted theft of a motor vehicle. A motor vehicle is defined as a self-propelled vehicle that runs on land surface and not on rails. All automobiles taken by persons not having lawful access even though the vehicles are later abandoned, including a joy ride, should be classified in this category.

In 2000, there were 724 motor vehicle thefts totaling \$4,327,702.

July had the greatest occurrence with 85 offenses. Five hundred forty-eight (76%) of the motor vehicle thefts were automobiles. Ninety-five percent of all recovered vehicles were locally stolen. Juveniles were arrested for 49% of the motor vehicle thefts.

---

**A**ny willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling, church, college, jail, meeting house, public building, motor vehicle, aircraft, personal property of another, etc. Only fires determined through investigation to have been willfully or maliciously set are to be classified as arsons.

In 2000, there were 96 arson offenses reported with a total property value loss of \$269,269. The greatest occurrences were in the months of June, September, and October with thirteen offenses for each month. Twenty-one (84%) of those arrested were juveniles. Sixteen (17%) arsons occurred in a structure with single occupancy residential being the most common of the designated structures. The highest total value loss was for single occupancy residential with a total of \$201,153.

The greatest number of arsons (43%) were in the "Total Other" category (crops, timber, fences, signs, etc.).

*The largest fire in Black Hills National Forest recorded history occurred in August-September, 2000 and burned more than 130 square miles, or seven percent of the forest land. The fire also destroyed a cabin and several outbuildings and cost at least \$9 million to fight. The total loss from the fire is estimated at over \$40 million.*

*A white adult female was arrested and convicted in federal court.*

*This fire is not represented in the arson statistics of this publication as it occurred in the jurisdiction of a non-reporting agency.*

*Statistics provided by the U.S. Forest Service*

**\*South Dakota Fire Marshal's figures were unavailable at the time this report was printed. Some offenses reported to the Fire Marshal Office may have been reported to the UCR/NIBRS Program. The primary source of data for this report was the South Dakota UCR/NIBRS Program.**

\*Due to UCR scoring procedures, a discrepancy in monetary value of stolen vehicles may exist in some tables. When a vehicle is taken in the commission of a more serious crime (rape, burglary, etc.) a motor vehicle theft is not tallied, but the vehicle will be counted as property taken during the offense.

## ARREST DATA

---

**8,670 Juvenile Arrests**

---

The total arrests submitted by the agencies in 2000 were 36,834. The greatest number of arrests (11%) occurred in August. The Uniform Crime Reporting Program offenses are divided into two groupings, Part I and Part II offenses, and it is as important and essential to maintain uniformity in the data collection of persons arrested as it is in the offense data collection conducted for Part I crimes only. The Part II offenses encompass all other crime classifications outside those defined as Part I offenses. The Part I offenses include: Criminal Homicide, Manslaughter by Non-Negligence, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny, and Motor Vehicle Theft. Arrests for Part I offenses total 4,233. Larceny had the greatest total arrest rate (8%) out of the Part I offenses of the total arrests. Of the total arrests in the Part II offenses, liquor laws had the greatest total arrest rate 28% (10,328). Only 7% of the total arrests made in 2000 were drug abuse related.

# LAW ENFORCEMENT OFFICERS ASSAULTED

**69 Officers Assaulted**  
**24 Officers Injured**  
**45 Officers Not Injured**

In 2000, there were 69 assaults on law enforcement officers reported. Of those assaulted, there were less than half (35%) that received injuries. Ninety-three percent (64) of the total assaults reported were cleared.

Responding to “disturbance calls (family quarrels, etc.)” had the greatest occurrence (32%) in the type of activity involved with the assault of a law enforcement officer. Most assaults (48%) occurred between the hours of 12:01 am and 2:00 am. The most common type of assignment consisted of one officer vehicle assisted (48%). Hands, fists, feet, etc. are the most commonly used weapon (83%) in the assaults that result in an injury. The same was true in 71% of the cases where there was no injury involved in the assault.

# CLASSIFICATION OF OFFENSES

---

**U**niformity in reporting under the South Dakota Uniform Crime Reporting System is based on the proper classification of offenses reported to or known by the police. The adoption of the National System of Uniform Crime Reporting included the utilization of the offense classifications of that system. In view of the need for compatibility with the National System, "offenses" under the program are not distinguished by designation of "misdemeanors", "felonies" or violations of municipal ordinances. The explanations of offense classifications may vary slightly from language used by those familiar with South Dakota State Law. However, the major categories of offense classification remain the same between the national and state level.

## PART I OFFENSES

### 1. HOMICIDE

1a. Murder and Non-Negligent Manslaughter - The willful (non-negligent) killing of a human being with malice aforethought.

*General Rule - Any death due to a fight, quarrel, argument, assault or commission of a crime.*

1b. Manslaughter by Negligence - The unlawful killing of a human being, by another, through gross negligence.

*General Rule - The killing may result from the commission of an unlawful act or from a lawful act performed with gross negligence.*

*Not included - Suicides, accidental deaths, assaults to murder, traffic fatalities, and attempted murders.*

### 2. FORCIBLE RAPE

2a. Rape by Force - The carnal knowledge of a female forcibly and against her will.

*General Rule - Forcible rape of a female, excluding carnal abuse (statutory rape) or other sex offenses.*

2b. Attempted Forcible Rape - All assaults and attempts to rape.

### **3. ROBBERY**

*The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.*

- 3a. Firearm - Operation in which any firearm (revolvers, automatic pistols, shotguns, rifles, pellet guns, etc.) is used as a weapon or employed as a means of force to threaten the victim or put the victim in fear.
- 3b. Knife or Cutting Instrument - Operation in which a knife or cutting instrument (knife, razor, hatchet, axe, scissors, glass, dagger, ice pick, etc.) is employed as a weapon or as a means of force to threaten the victim or put the victim in fear.
- 3c. Other Dangerous Weapon - Operation in which any other object or thing (club, acid, explosive, brass knuckles, etc.) is used as a weapon.
- 3d. Strong Arm (Hands, Fists, Feet, etc.) - Muggings and similar offenses where no weapon is used, but strong-arm tactics (limited to the use of personal weapons such as hands, arms, feet, fists, teeth, etc.) are employed or their use is threatened to deprive the victim of possessions.

### **4. ASSAULT**

*An assault is an attempt or offer, with unlawful force or violence, to do physical injury to another.*

- 4a. Firearm - All assaults wherein a firearm (revolvers, automatic pistols, shotguns, rifles, pellet guns, etc.) is used or its use is threatened.
- 4b. Knife or Cutting Instrument - All assaults wherein a knife or cutting instrument (knife, razor, hatchet, axe, scissors, glass, dagger, ice pick, etc.) is used as a cutting or stabbing object or their use is threatened.
- 4c. Other Dangerous Weapon - Assaults resulting from the use or threatened use of any object (club, bricks, jack handles, tire irons, bottles, brass knuckles, or other blunt instruments, explosives, acid, lye, poison, scalding water) as a weapon.
- 4d. Strong Arm (Hands, Fists, Feet, etc.) - The attacks by use of personal weapons (hands, arms, feet, fists, teeth, etc.) which result in serious or aggravated injury.

## 5. BURGLARY

*The unlawful entry or attempted forcible entry of any dwelling, attached structure, public building, shop, office, factory, storehouse, apartment, house trailer (used as a permanent structure), warehouse, mill, barn, camp, other building, ship or railroad car to commit a felony or larceny.*

*General Rule - For Uniform Crime Reporting purposes the terms "Burglary" and "Breaking and Entering" are considered synonymous.*

- 5a. Forcible Entry - All offenses where force of any kind is used to enter unlawfully a locked structure, with intent to steal or commit a felony. This includes entry by use of a master key, celluloid, or other device that leaves no outward mark but is used to open a lock. Concealment inside a building, followed by the breaking out of the structure is also included.
- 5b. Unlawful Entry (No Force) - Any unlawful entry without any evidence and is achieved by the use of an unlocked door or window.
- 5c. Attempted Forcible Entry - Situations where a forcible entry burglary is attempted.

## 6. LARCENY

*The unlawful taking, carrying, leading, or riding away of the property from the possession or constructive possession of another.*

*General Rule - All larcenies and thefts resulting from pocket-picking, purse-snatching, shoplifting, larceny from auto, larceny of auto parts and accessories, theft of bicycles, larceny from buildings, and from coin-operated machines. Any theft that is not a robbery or the result of breaking and entering is included. Embezzlement, larceny by bailee, fraud or bad check cases are excluded.*

## 7. MOTOR VEHICLE THEFT

*The theft or attempted theft of a motor vehicle.*

- 7a. Autos - The thefts of all sedans, station wagons, coupes, convertibles, and other similar motor vehicles which serve the primary purpose of transporting people from one place to another.
- 7b. Trucks and Buses - Vehicles specifically designed to transport people on a commercial basis and to transport cargo.
- 7c. Other Vehicles - All other motor vehicles such as snowmobiles, motorcycles, motor scooters, trail bikes, mopeds, golf carts, etc.

## PART II OFFENSES

The Part II offenses encompass all other crime classifications outside of those defined as Part I offenses. In November 1932, the Uniform Crime Reporting Program adopted a Standard Classification of Offenses for the compilation of criminal statistics. This classification was devised and adopted in order that law enforcement, judicial, and penal statistics might be uniformly compiled in terms of a single classification of offenses. The definitions of the Part II offenses that follow include some of the offense titles described in state, county or municipal code. These titles have been included as descriptive data to aid in determining the offenses that should be included or excluded from each classification.

### 8. OTHER ASSAULTS

*Assaults and attempted assaults where no weapon was used or which did not result in serious or aggravated injury to the victim are included as other assaults.*

Examples of local jurisdiction offense titles which would be included in "other assaults" are:

- A. Simple assault
- B. Minor assault
- C. Assault and battery
- D. Injury by culpable negligence
- E. Resisting or obstructing an officer
- F. Intimidation
- G. Coercion
- H. Hazing
- I. Attempts to commit the above

### 9. ARSON

*The willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling, church, college, jail, meeting house, public building, motor vehicle, aircraft, personal property of another, etc. should be scored as arson.*

*General Rule - Incidents in which persons are killed as a direct result of arson are classified as both criminal homicides and arsons.*

## 10. FORGERY AND COUNTERFEITING

In the majority of states, forgery and counterfeiting are treated as allied offenses. Place in this class all offenses dealing with the making, altering, uttering or possessing, with intent to defraud, anything false in the semblance of that which is true. Include:

- A. Altering or forging public or other records
- B. Making, altering, forging or counterfeiting bills, notes, drafts, tickets, checks, credit cards, etc.
- C. Forging wills, deeds, bonds, seals, trademarks, etc.

- H. Statutory rape - (no force)
- I. All attempts to commit any of the above

## 18. DRUG ABUSE VIOLATIONS

*Drug abuse violation arrests are requested on the basis of the narcotics used. Include all arrests for violations of state and local ordinances, specifically those relating to the unlawful possession, sale, use, growing, manufacturing and making of narcotic drugs. Make the following subdivisions of drug law arrests, keeping in mind to differentiate between sale/manufacturing and possession.*

### SALE/MANUFACTURING

- A. Opium or cocaine and their derivatives (morphine, heroin, codeine)
- B. Marijuana
- C. Synthetic narcotics - manufactured narcotics which can cause true drug addiction (demerol, methadone)
- D. Dangerous non-narcotic drugs (barbiturates, benzedrine)

### POSSESSION

- E. Opium or cocaine and their derivatives (morphine, heroin, codeine)
- F. Marijuana
- G. Synthetic narcotics - manufactured narcotics which can cause true drug addiction (demerol, methadone)
- H. Dangerous non-narcotic drugs (barbiturates, benzedrine)

*Include all attempts to sell, manufacture, or possess any of the above.*

## 19. GAMBLING

All charges which relate to promoting, permitting or engaging in illegal gambling. To provide a more refined collection of gambling arrests, the following break-down should be furnished:

- A. Bookmaking (horse and sport books)

- Z. Violations of quarantine

*Include all offenses not otherwise classified and all attempts to commit any of the above.*

## **27. SUSPICION**

*While "suspicion" is not an offense, it is the grounds for many arrests in those jurisdictions where the law permits. After examination by law enforcement officers, the prisoner is either formally charged or released. Those formally charged are entered in one of the Part I or Part II offense classes. This class is limited to "suspicion" arrests where persons arrested are released by police.*

## **28. CURFEW AND LOITERING LAWS (Persons under 18)**

*Count all arrests made for violations of local curfew or loitering ordinances where such laws exist.*

## **29. RUNAWAY (Persons under 18)**

*For purposes of the UCR program, report in this category apprehensions for protective custody as defined by local statute. Arrest of runaways from one jurisdiction by another agency should be counted by the home jurisdiction. Do not include protective custody actions with respect to runaways taken for other jurisdictions.*

# GLOSSARY

---

**ADULT:** A person 18 years of age or older.

**ARREST:** The act of taking into custody by authority of law, to charge him or her with a criminal offense or to initiate juvenile proceedings.

**CLEARANCE:** An offense is cleared, or solved for crime reporting purposes, when at least one person is arrested, charged with commission of the offense and turned over to the court for prosecution. Provision is also made for clearance in certain "exceptional" situations.

**CLEARANCE RATE (TOTAL):** The number of clearances divided by the total number of offenses, expressed as a percent. The formula is:

$$\frac{\text{Number of Clearances}}{\text{Number of Offenses}} \times 100$$

Offenses are reported as they become known to law enforcement agencies. Clearances are scored as they are made. Therefore, it is possible for the clearance rate to exceed 100 percent for a time period. Both clearances by arrest and exceptional clearances are included.

**COMMERCIAL HOUSE:** A robbery subcategory which tallies the number of actual offenses and the value of stolen property obtained in robberies within commercial establishments except gas stations, convenience stores, and banking-type institutions. These businesses are excluded because separate categories for each are provided. Include supermarkets, department stores, restaurants, taverns, finance companies, hotels, motels, etc.

**CRIME INDEX:** Classification of seven offenses used as an indicator of crime. Crime Index offenses are murder and non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny, and motor vehicle theft.

**CRIME RATE:** The number of known offenses per 100,000 population. The formula is:

$$\frac{\text{Number of Offenses}}{\text{Population}} \times 100,000$$

Crime rates per population unit are employed to remove the effect of differing sizes of law enforcement service areas, permitting the examination of reported crime on an equalized population basis. "Per 100,000 population" is generally utilized to preclude the rates for infrequently occurring offenses from being expressed as very small numbers.

**EXCEPTIONAL CLEARANCE:** When the law enforcement agency has enough information to make an arrest, but cannot locate the offender to do so, then, the complaint is considered solved or cleared by exceptional circumstance, rather than by arrest. For example, a crime may be cleared by exceptional circumstance when an offender has died, moved out of state, or when extradition has been refused.

**HIERARCHY RULE:** The hierarchy assigns crimes in an order according to their seriousness. When using the hierarchy to obtain crime index figures, only the most serious category of crime is counted in any single criminal event. The hierarchy of the index is murder, rape, robbery, aggravated assault, burglary, larceny, and motor vehicle theft.

**JUVENILE:** A person 17 years of age or younger.

**JUVENILE ARREST:** For purposes of Uniform Crime Reporting, a juvenile should be counted as "arrested" when the circumstances are such that if he or she were an adult, an arrest would be tallied. When a law enforcement officer places a juvenile in custody for a specific offense, including status offenses, an "arrest" is scored. Law Enforcement contacts with juveniles where no offense has been committed are not scored as arrests. Juveniles taken into custody for their own protection, such as in neglect cases, are not scored as being arrested if they have not committed an offense.

UCR uses the term "arrest" for both adults and juveniles to describe apprehension.

**JUVENILE CRIME:** The only measure of juvenile crime available through Uniform Crime Reporting is the number of juvenile arrests (number, rate, and percentage of total arrests).

**PROPERTY CRIMES:** Subclassification of the Crime Index which encompasses burglary, larceny, motor vehicle theft, and arson.

**STATUTORY RAPE:** The carnal knowledge or the attempted carnal knowledge of a female with no force used and the female victim is under the legal age of consent.

**UNFOUNDED COMPLAINTS:** A complaint which is determined through investigation to be false or baseless. If the investigation shows that no offense occurred nor was attempted, the reported offense can be unfounded for Uniform Crime Reporting purposes. The findings of a coroner, court, jury, or prosecutor do not unfound offenses or attempts which law enforcement investigations establish to be legitimate.

**VICTIM:** A victim, in this publication, is an individual person who has had a violent crime committed against him or her. Victims, here, are described by age, sex, and race.

**VIOLENT CRIMES:** Subclassification of the Crime Index which encompasses murder and non-negligent manslaughter, forcible rape, robbery, and aggravated assault.

# National Incident-Based Reporting System (NIBRS)

## **NIBRS – National Incident Based Reporting System**

The way crime is counted in the United States is undergoing fundamental changes. We are shifting from monthly aggregate reporting of summary crime and arrest statistics (the summary **Uniform Crime Reporting (UCR)** program) to detailed reporting of crime and arrest activities at the incident level (the **National Incident-Based Reporting System (NIBRS)**). The National Incident-Based Reporting System is the data collection system developed by the FBI to take the place of the older Uniform Crime Reporting system. Incident-based reporting supplies significantly richer data regarding the nature of crime and the law enforcement response. NIBRS will greatly expand our analytic capabilities at the local, state and federal levels.

The incident-based system reports on a much broader range of crimes and includes data on the victim, the offender, property, associated arrests and other circumstances for each reported incident. The unit of count for NIBRS is the criminal incident. For each incident reported in NIBRS, there may be data on up to 999 victims, 99 offenders and 99 arrestees. Each incident may include as many as 10 offenses, of which there are 46 different offense types. The FBI NIBRS data set includes 53 data elements. The State of South Dakota added 64 additional elements, of which 23 are mandatory and 41 are optional.

The advantage of the incident-based system lies in enhanced data quality – more data and more accurate data. A sample of what the incident-based system will report includes:

- age, gender, and race of both the victim and the defendant
- the relationship between the victim and the defendant
- where and when the crime took place
- what type of injury may have occurred
- what type of weapon may have been used
- whether drugs or alcohol are involved

When cases involve property crime, the incident-based system will report:

- location of the crime (convenience store, residence, etc.)
- type of victim (individual, business, etc.)
- type of loss (stolen, vandalized, etc.)
- type and description of the property
- value of the property

As of June 2001, 21 states were certified by the FBI as NIBRS compliant. Fifteen states are engaged in FBI NIBRS compliance testing, and seven additional states are in a NIBRS developmental phase. In February 2001, the FBI certified South Dakota as NIBRS compliant.

The crime data provided is an enumeration of crimes known to law enforcement agencies and not an account of all crimes that were committed in South Dakota during 2000. Crimes included in this report are based upon reports received by law enforcement agencies from victims, officers who discovered infractions or other sources.

In 2000, 69 South Dakota law enforcement agencies utilized the NIBRS system to report data to the South Dakota Criminal Statistics Analysis Center (SDSAC.) The SDSAC staff recognizes the work and energy it takes converting to a new reporting system. We extend our congratulations to the following agencies that have recognized the potential of NIBRS and have committed their resources to its success:

## Primary Location of Offense

The data element **LOCATION TYPE** is used to report the type of location/premises where each offense took place. Only one location is recorded for each offense.

**Example:** An assault started in a bar, continued into an adjoining parking lot, and ended in the street. As the bar was the location where the offense was initiated and best describes the circumstances of the crime, "Bar/Night Club" should be reported.

Of the 9,078 locations reported, 3,469 (38%) took place at a Residence, 1,299 (14%) occurred on a Highway/Road/Alley and 869 (10%) were reported in a Parking Lot/Garage. The remaining 3,441 (38%) incidents were comprised of other categories as listed below.

## Victim Data

Victim Data are collected to describe the victims involved in the incident. A separate set of victim data is submitted for each of the victims (up to 999) involved in the incident. There must be at least one set of victim data for each crime incident.

**Age of Victim** is to be reported either as an exact age, a range of years, or as unknown. An age is required for each "Individual" victim. If the exact age is unknown, an approximate "age" may be reported. Any range in years is acceptable.

**Example:** If a deceased female victim appeared to be a teenager, the report could be "13 to 19."

There were 9,377 victims reported in 2000. Twelve percent (1,128) were juveniles and 87 percent (8,162) were adults. One percent (87) of the victims were under the age of ten.

**Sex of Victim** is to be indicated in this data element as: Male, Female, or Unknown.

In 2000, 2,681 of the victims were females, 3,341 victims were male, and 3,355 were unknown.

**Race of Victim** is reported as one of the following: White, Black, American Indian/Alaskan Native, Asian/Pacific Islander, or Unknown.

Of 9,377 victims, 5,404 (58%) were White, 424 (5%) were American Indian/Alaska Native, 42 (.4%) were Black, 16 (.2%) were Asian/Pacific Islander, and 3,491 (37%) were reported as Unknown.

## Suspected Usage by Offender(s)

The data element **Offender(s) Suspected of Using** indicates whether any of the offenders in the incident were suspected of consuming alcohol or using drugs/narcotics during or shortly before the incident; or of using a computer, computer terminal, or other computer equipment to perpetrate the crime. Any or all of the following four categories can be used for each offense: **Alcohol, Computer Equipment, Drugs/Narcotics, or Not Applicable**.

**Example (1):** A rape victim advised that her attacker bragged that he had been “freebasing” cocaine just before the incident. The report should indicate “**Drugs/Narcotics**.”

**Example (2):** A computer “hacker” used his personal computer and a telephone modem to gain access to a company’s computer and steal proprietary data. “**Computer Equipment**” should be reported.

Of the 9,078 incidents reported; 1,133 (12%) involved alcohol; 813 (9%) involved drugs; 12 (.1%) involved the use of computer equipment; and 7,120 (78%) were not applicable.
