Re: LRC Review of Proposed Constitutional Amendment Regarding Elections

Dear Mr. Taylor:

In accordance with SDCL 12-13-24 and 12-13-25, the Legislative Research Council (LRC) is required to review each initiated measure submitted to it by a sponsor for the purpose of determining whether the measure is "written in a clear and coherent manner in the style and form of other legislation" and for the purpose of ensuring that the "effect of the measure is not misleading or likely to cause confusion among voters." Based on this review, the LRC provides written comments to the proposal's sponsor for the purpose of assisting the sponsor in meeting these requirements. This includes providing "assistance . . . to minimize any conflict with existing law and to ensure the [proposal]'s . . . effective administration." While there is no obligation to accept any of the suggestions contained in this letter, including the edits below, you are asked to keep in mind the legal standards established in SDCL 12-13-24 and 12-13-25.

The purpose of a constitution is to provide a basic structure within which a government can function. The Constitution, in general terms, prescribes and limits the powers to be exercised by that government and sets forth the rights of the governed. As submitted via e-mail on December 15, 2021, this proposal to establish a chapter of the South Dakota Constitution would specify several measures that must be taken in state elections. These are not general terms. For example, the five crimes prescribed in the draft would be the first crimes specified in the Constitution. The Constitution is not a compilation of policy statutes and as such, should not be amended to incorporate what ought to be statutory material. Doing so only increases the risk of a successful challenge of this proposal, if approved, for failure to adhere to the single subject rule. (Please review the case of Thom & Miller v. Barnett et al, 2021 S.D. 65, 967 N.W.2d 261, for more information on this concern.) Therefore, this office recommends that the proposed constitutional provision be re-written so that it would amend the South Dakota Codified Laws as an initiated measure, rather than impact the South Dakota Constitution.

In addition, there are several edits to the proposed text that this office encourages you to consider. We recommend the edits for sake of clarity and to bring the proposed measure into conformance with the style and form of South Dakota legislation. The latter is based upon the Guide to Legislative Drafting (https://mylrc.sdlegislature.gov/api/Documents/127102.pdf). Should you have any questions about the attached edits, or about the suggestions made in this letter, please feel free to contact this office. Please reference the enclosed, marked-up copy while reviewing the bulleted changes:

Generically:

- Proposed catchlines were struck, reflecting the fact that catchlines are not law, but are indexing that is set by the LRC's Code Counsel on authority delegated by law from the Code Commission.

- The LRC drafting manual reflects longstanding state practice by rejecting the federal drafting convention whereby sections may be long and each paragraph of a section may be made a subdivision. This is done for ease of understanding of discrete provisions. Accordingly, some of the long sections provided have been reduced in size and organized to reflect individual topics.

- The phrase "state-issued photo identification or a state-issued driver’s license" was shortened to "state-issued photo identification," as a South Dakota-issued driver’s license is photographic identification.

- Unless specified below, the remaining edits are stylistic and intended to make the language more concise and readily understood.

Section 4:
- There are a number of practical concerns with this section. This section requires "all internet connectivity" to "be discontinued at any polling place during the entire time votes are cast and counted." With internet connectivity provided by smart phones, how will this be practically enforced? If votes must be by paper ballots and there is no machine counting, does this remain a concern? Additionally, if poll workers can obtain information on vote totals by word-of-mouth, does the fact that "electronic sources of information" cannot provide the same information impede potential bias?

Section 9:
- This section establishes blanket liability protection for any photographing outside of a polling station. There are several criminal offenses associated with photography that, per the plain language of this provision, would receive a constitutional defense. This might not only include harassment or stalking, but also invasions of privacy, child pornography, as well as more esoteric crimes like misuse of identification cards.

Section 12:
- This section requires that all votes, to be counted, must be reported within six hours of the time voting has closed. This would appear to prevent the ability to count provisional ballots or to have canvassing boards correct issues, as provided in South Dakota law currently.

Section 14:
- The plain language of this section allows the Legislature to "adjust or void any vote totals it determines appropriate" as well as to "ignore any vote totals and exercise its right to appoint" presidential electors. This would likely be a violation of the Equal Protection Clause of the Fourteenth Amendment.

Sections 18-21:
- These sections specify a Class III felony. A Class III felony is not recognized in South Dakota law. This further underscores the problem of putting criminal acts in the Constitution. These provisions require concepts cross-referenced from statute to operate. Constitutional provisions should not rely upon subordinate aspects of law to function.

- With regard to Section 21, it is unclear what the phrase "causes ballots to be adjudicated" means. It is equally unclear how one can intentionally do so in good faith.

Finally, this letter constitutes neither an endorsement of the initiated measure nor a guarantee of its sufficiency. It is a recognition that your responsibility to submit the draft proposal to the LRC for review and comment, as required by SDCL 12-13-25, has been fulfilled. If you proceed with the proposal, please ensure neither your statements nor any advertising imply that this office has endorsed or approved the proposal.

Sincerely,

INITIATED CONSTITUTIONAL AMENDMENT PETITION
OR
INITIATED PETITION FOR REPEAL OF CONSTITUTIONAL
PROVISION

WE, THE UNDERSIGNED qualified voters of the state of South Dakota, petition that the
following section or sections and article or articles of the South Dakota Constitution be added
and that this proposal be submitted to the voters of the state of South Dakota at the general
election on November __, ____ for their approval or rejection.

Title: South Dakota Election Integrity

Article XXXIII

BE IT ENACTED BY THE PEOPLE OF SOUTH DAKOTA:

That the Constitution of the State of South Dakota be amended to add a new article to read as
follows:

See § 1. Prohibited Election Conduct.

(a) No voting machine may be utilized in any election to count or calculate votes. All ballots
shall be paper ballots.

§ 2. All votes shall be counted by hand by the judgment of the human eye. All counting
shall occur by two persons, one appointed by each of the two largest vote-getting parties in
the previous state gubernatorial election.

(b) Any differences or uncertainties in counting may only be resolved by an
individual approved and appointed in advance of the election by the state legislature Legislature.
§ 3. Mail-in ballots shall be prohibited, except when requested by a voter in advance and after showing state-issued photo identification or a state-issued driver's license.

§ 4. All internet connectivity shall be discontinued at any polling place during the entire time votes are cast and counted. In addition, all persons serving in any capacity at a polling location, except observers, shall, from the time of poll closing until the vote has been finally and publicly reported, check their cell phones so the counting occurs without the potential bias of any electronic sources of information of vote totals from other locations.

§ 5. Local-law enforcement officials shall prohibit the delivery of boxes or containers to any person may deliver any box or container of any kind into a polling place from the time the polls are first open for voting until after all votes have been counted and reported.

See 2. Registration Requirements § 6.

(a) All registration to vote shall occur on or before 14 days prior to an election day. Such registration shall require the registering individual to show valid state-issued photo identification or a valid state-issued driver's license. No identification or driver's license which has expired shall be invalid.
Sec. 7. Election Observer and Reporting Requirements

(a) No early voting shall may be permitted more than two weeks before election day. All mail-in ballots must be received two days before election day. Otherwise, they shall not to be counted. Mail-in balloting cannot be permitted to delay the announcement of full election totals within six hours after the polling closing.

(b) All voters in all elections shall be are. A voter in an election is required to show valid state-issued photo identification or a valid state-issued driver’s license before receiving a ballot. No identification or driver’s license which has expired shall be is valid.

(c) All observers in a polling station shall may be located within at least five feet of from any station they desire to observe. Observers inside a polling station shall are also be permitted to photograph any or all activities they desire. Private citizens outside a polling station shall be are permitted to photograph any and all activities they desire and shall be free from any liability of any kind for such photographing. All permitted photographing shall be understood to include and allow includes video-taping and the recording of sound and voice.

(d) All ballots shall may only be counted only at and reported only from the place where the votes are cast.
§ 11. Under no condition shall the counting of votes be stopped between the time that a poll has closed and six hours thereafter, unless completed.

§ 12. All votes shall be counted and reported within six hours of the time voting has closed. No votes being reported thereafter shall be valid.

§ 13. All vote totals shall be reported from all locations on the following basis: (1) by 11:59 p.m. of the night before the election (relating to early voting and mail-in ballots); and (2) at one hour and each hour thereafter following the scheduled polling closing time; and (3) a final count at six hours after the scheduled polling closing time.

See 4. Legislative Election Authority § 14.

(a) The legislature of the state shall have authority in elections for president and vice-president of the United States to adjust or void any vote totals it determines appropriate. It may also ignore any vote totals and exercise its right to appoint electors as specified under the United States Constitution.

(b) Any alleged violation of state election law may be remedied by a complaint filed with the state legislature, who shall promptly, according to its own procedures, review, receive evidence, and make a final ruling on the same.
See 5. Inspection Rights § 16.

(a) All registration material, election-related computer files and data bases, and actual ballots shall remain available for inspection by representatives of any state party, the legislature, the courts, and any group of 1,000 or more requesting registered voters in the state, for 120 days after the election.

See 6. Election Crimes

(a) § 17. Any person voting:

(1) Voting twice or more times in a single election.

(2) Voting on behalf of a deceased person.

(3) Voting using another person’s name.

(4) Voting who is not a United States citizen.

shall be guilty of treason against the state.

Commented [JG15]: Criminal violations are not generally placed in the constitution, but are instead inserted in code. This is more properly included in an initiated measure.

(b) § 18. Election officials. An election official denying any right to observers to an election shall be guilty of a Class III felony.

Commented [JG16]: A Class III felony is not recognized in South Dakota law. This further underscores the problem of putting criminal acts in the constitution. These provisions require concepts provided in statute. Constitutional provisions should not rely upon subordinate aspects of law to function.
§ 19. Any person who resets or erases any election files or data bases, or destroys or misplaces any ballots prior to the end of the 120-day inspection period, shall be guilty of a Class III felony.

§ 20. Any polling supervisor who fails to report partial and final results on the schedule shall be guilty of a Class III felony.

§ 21. Any ballot counter who intentionally, with a lack of good faith, causes ballots to be adjudicated shall be guilty of a Class III felony.

Commented [JS17]: It is unclear what this means—"causes ballots to be adjudicated"—and how one can intentionally do so in good faith.
