SURVEY METHOD

In late 2022, the South Dakota Statistical Analysis Center (SAC) surveyed police departments in South Dakota. A survey accompanied by instructions was emailed to all police departments. The completed surveys were encoded and verified by the South Dakota Criminal Statistical Analysis Center staff. If you have any questions regarding this information, please contact Teresa Kusser at 605-773-2286 or Teresa.Kusser@state.sd.us

This was the 19th time the SAC compiled statewide management data pertaining to South Dakota Police departments. The results of this survey are intended to provide police chiefs with a valid means of comparing expenditures and resources of departments across South Dakota. In addition, the results should provide the Chiefs with a substantial basis from which to justify future managerial decisions.

Currently, there are sixty-seven (67) police departments in South Dakota (this figure does not include tribal agencies). Forty-one (41) departments returned surveys yielding a total response rate of 61%. The survey instrument is a self-report completed by the Chief of Police or department staff. All questions were designed to be objective; however, some questions may have been subject to different interpretations. Thus, this report can only reflect summary results that are as valid and accurate as the data provided by each department.

It should also be noted that salary data throughout this report are approximations. Due to the number of personnel at any given rank and the diverse salaries relative to each officer, such approximations were necessary to perform overall summary calculations.

PARTICIPATING DEPARTMENTS, WITH POPULATIONS, ANNUAL BUDGET AND PERCENT OF GRANTS USED

Population and Budget			
Department	Population	Budget	% Grants
Aberdeen	28,210	\$5,985,800	1.00%
