This course will count as continuing education for approved firearms instructors under South Dakota state administrative rule 2:01:06:17.05.

This is an interactive course designed to prepare individuals to determine training needs, and then develop, implement, and evaluate meaningful training for their department. Attendees learn the key to effective training is to focus on their trainees and prepare to meet those needs. Pre-class articles and a journal will be provided to students before the class. Students will produce two final projects. The first project will be a non-Law Enforcement topic lesson plan and presentation. The second project will be a Law Enforcement topic lesson plan prepared to the same standards as the first project, developed by student groups and furnished to all students on completion. The concept for the second project is to make law enforcement lesson plans, relevant to something they will soon instruct, so they can take them home and use in the near future, as well as making them available to more officers and increase agencies ability to develop their own lesson plans. Topics include: adult learning, strategies for using Multiple Intelligences, Emotional Intelligences, and Blooms Taxonomy to increase participant learning, training needs assessment, instructional methods, Problem Based Learning, instructional objectives, course outlines, lesson plan development, testing & evaluation, presentation techniques, student presentations, and development of a training lesson relevant to each individual's future teaching assignments.

This course is presented by Gerri Ann Eide. Gerri Ann Eide: I attained my BS in Agriculture Education & Agricultural Journalism and MEd in Career & Technical Education from South Dakota State University. I am a leadership and educational trainer with 20 years of experience. Through the years, I've attended exceptional, challenging educational training sessions that forever changed my knowledge and perceptions. But like many of you, I have also attended boring, poorly executed trainings I forgot as I left the room. I gained nothing and was utterly frustrated about the waste of time. I'm dedicated as a trainer to helping others learn and implement effective educational and facilitation techniques. Through GANE Leadership Consulting, I tailor the training to meet the specific needs of attendees, growing their effectiveness as leaders, facilitators and trainers. Training in Emotional Intelligences, Multiple Intelligences, adult learner needs, and Problem Based Learning continually come into play as I guide individuals to teach and facilitate exceptionally.
